INTRODUCING THE

ENTERPRISE CLOUD ACCELERATION WORKSHOP

LET'S GO

TRANSFORMATION AT VELOCITY

Now more than ever, organisations are facing the need to adapt and innovate more quickly so that they can ensure both short-term and long-term success. Driving transformation at scale and pace requires a careful balance.

Cloud technologies have the ability to enable a measured approach. However, the need to accelerate cloud adoption can lead to the end result falling short of expectation when complex and often unforeseen challenges aren't successfully negotiated along the way. This often results in frustrated developers, application owners and infrastructure teams.

TALK TO THE EXPERTS

Computacenter is an AWS Advanced Partner and global expert in enterprise hybrid and multi-cloud adoption. This means we're well placed to assist in navigating the pitfalls to accelerate transformation and help organisations achieve business outcomes in the shortest possible timeframe, regardless of existing maturity in adopting and managing services and applications in the cloud.

THOUGHT LEADERSHIP
Learn from our own experiences of working with enterprise organisations to drive complex cloud transformation at scale.
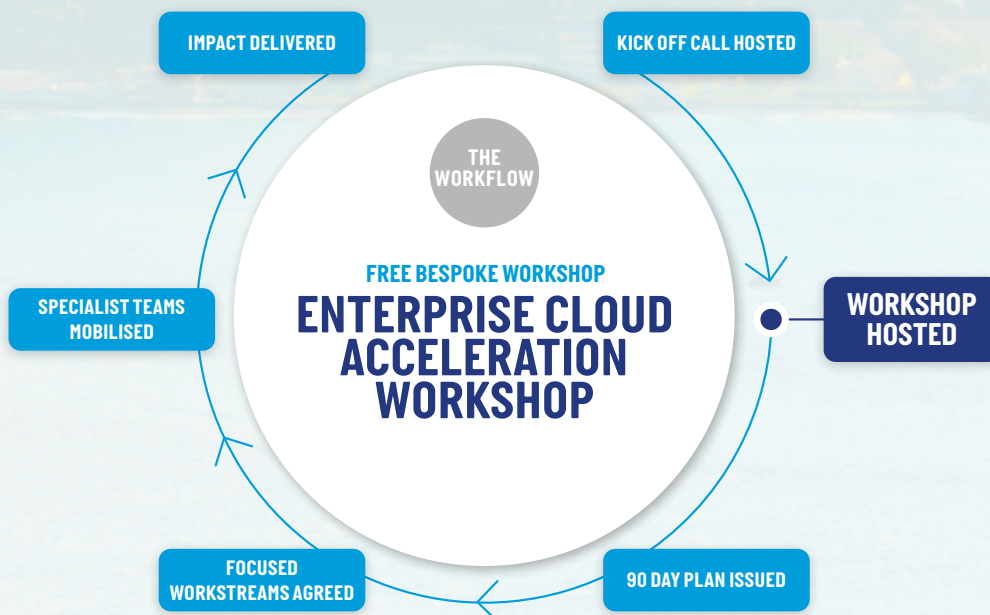

REMOVE THE BLOCKERS
Receive clear and concise next steps in the form of a 90-day plan that will provide the clarity you need to confidently drive cloud transformation at pace.

KNOWLEDGE SHARE
Understand how Computacenter has built a robust cloud practice to tackle the key challenges holding you back.

WHAT NEXT?

If you are interested in scheduling a workshop, the process couldn't be simpler. We will host a brief kick off call to establish the focus area, agree an agenda and understand which resources may be required on the day. Depending on your current focus, this may include representation from your infrastructure, application and development teams, along with specialist subject matter experts from Computacenter. Once concluded, our team will create a 90 day plan which highlights our key observations from the discussion on the day and outlines the recommended next steps.
